SUBJECT: Payment of Retirement to Terminated Career Agent

1. It has been requested by the Foreign Division concerned that retirement deductions which have been withheld from the salary of a Career Agent who is being terminated be paid directly to him due to the security factors involved.

2. Since the regulations provide that retirement deductions will be deposited with the Civil Service Commission, and a terminated employee must apply to them through his last employing Agency, it is requested that we be advised if the normal government channels must be utilized in such cases or if the regulations may be waived and a direct payment made on the grounds of security.
